

For over 25 years, Greater Houston Community Foundation has provided individuals, families, companies, foundations, and advisors with the ability to increase impact through their philanthropic and social investments. We take great pride in putting our expertise and stewardship to work for our donors, partners, and our community. As one of Houston's leading philanthropic grant makers, we are honored to make a long-lasting impact in our community by helping companies align their mission with the causes they care about most.

Through one of the fastest-growing types of funds at the Foundation, you can support worthy students entering or continuing their college education by creating a scholarship fund. You can design the scholarship criteria and requirements, and we manage the administration and ensure that the scholarships are distributed according to IRS rules and regulations.
